

Model 449SD Provers (Test Measure for DEF)

SPECIFICATION SHEET

Application

Provides an accurate standard of comparison for verifying the metered output of Diesel Exhaust Fluid (DEF).

Features and Details

- 5 gallon capacity
- Includes a DEF magnetic misfilling prevention device
- Complies with an independent laboratory study for DEF Protocol 654001.001.027.00
- Specifically labeled for DEF to avoid cross contamination with other liquids
- Optional Miss-filling Prevention Device (MFPD) is permanently installed in DEF tank fill pipe. Eliminates the risk of accidental DEF filling or environmental contamination

Materials of Construction

- 300 series stainless steel

Code Compliance

Built and calibrated to the latest OIML R-120, API and NIST handbook 105-3 standards

Item Number	Description	Size	Weight (lbs)
449SD-0500 1F	Funnel w/ DEF spout	N/A	28.0
449SD-0500 1M	Test measure	5 gallon	N/A
449SDM0500 1P	Misfilling device	N/A	.50
